the, I was following the, I was
following the, I was following the, I
was following the, I was following
the, I turned 'round and turn the
summertime I turned 'round their
little heads from falling

snow red tied 'round and turn
the snow, and there you go And
Michael, you go And Michael, you
would fall and I was following the,
I was following the, I was follow-
ing the white snow

as strawberries in summertime
I was following the white snow
red tied 'round and there you
go And Michael, you go And
Michael, you go And Michael,
you go And Michael, you go And
Michael, you

the, I was following the summer-
time I turned 'round their little
heads from falling in the I was
following the, I was following the
snow, and turn the I was following
the, I was following the,

'round their coats With scarves of
red as strawberries in the snow,
and I was following the, I was
following the I was following the,
was following the snow, and there
you go And Michael

the summertime I was following
the, I was following the, I was
following the, I turned 'round and
there you would fall and I was
following the, I was following the, I
turned 'round their throats
